Online Learning Model Evaluation (Phase 1) - Student Information Statement

Congratulations on nearing the completion of your study this semester!

You have participated in a subject that implemented the CSU Online Learning Model (OLM), and we would love you to complete a survey as part of the evaluation so that we can learn about your experiences and make any improvements needed.

As an incentive, your survey completion will put you in the draw to win a \$100 gift voucher.

Any information collected will remain confidential and teaching staff will not be informed about which students have chosen to participate in the evaluation.

The data collected from within your subject, with student names removed, may be provided to the subject coordinator after the conclusion of the semester and after grades have been finalised to assist them to improve the subject for the future.

This project will help contribute to an improved learning experience for students at CSU as well as help to improve the design and implementation of subjects and courses at the university. Overall, this project aims to improve the delivery of online learning to students of CSU and ensure that CSU continues to utilise recent developments in digital technology for learning.

Once the data has been analysed the names of participants will be permanently replaced with numerical codes. The data will also be modified to ensure that any information that could directly or indirectly identify participants is removed and data will be stored on password protected computers and servers. Data will be retained at CSU to allow for the completion of any publications resulting from the evaluation.

The evaluation is being conducted by Prof Barney Dalgarno and Dr Lindy Croft-Piggin from the ulmagine Digital Learning Innovation Laboratory at CSU. All correspondence should be directed to Dr Lindy Croft-Piggin:
